1448. Anonymous. *Appletons' journal of literature, science, and art.* Some cataloging information for this serial run is surrounded by brackets because these volumes were not cataloged in detail. The cataloging numbers and alcoves themselves are accurate, but their depiction here (line breaks, "No." v. "No" variants, etc.) is not necessarily true to the original. The W.C. cataloging numbers in the OCMH1 field may actually attest to the presence of Wallingford Community Library bookplates, not inscriptions. ; <http://catalog.hathitrust.org/Record/009408849>

890. Anonymous. *Nature : a weekly illustrated journal of science.* Some cataloging information for this serial run is surrounded by brackets because these volumes were not cataloged in detail. The cataloging numbers and alcoves themselves are accurate, but their depiction here (line breaks, "No." v. "No" variants, etc.) is not necessarily true to the original. The W.C. cataloging numbers in the OCMH1 field may actually attest to the presence of Wallingford Community Library bookplates, not inscriptions. <http://catalog.hathitrust.org/Record/000637680> ; OCMH1: [v.1] ; W.C. Noyes [John Humphrey Noyes] Wallingford April 19, 1875 | In reading the Life of John Woolman—a | book that Henry Ward Beecher recommended in his | trial—I find that there is a great deal in it that | is childish, and that our people would laugh at, | but I think it is a book well worth reading—for | two things at least. One thing as a study of char- | acter—Quaker character. This John Woolman | is a pure Quaker—probably as good a specimen | of a Quaker "waiting on the motions of the Spirit," as | you can anywhere find--A more model Quaker | than George Fox himself. Then there is running through | the whole of the book a principle that I wish our | people would all study and lay to heart— | especially, our financiers and money men. It is this; | If we would live in a plain simple way—reduce | our wants to a true standard—avoid things that | are really unnecessary and unhealthy in diet, clothing | and equipments of all kinds—stick to a simple true good taste we would not need to work near as hard | as we do. The burden of life—the great labor and | toil of mankind is to provide themselves with lux- | uries—things that are unnecessary. The true way | to make our ends meet, and live comfortably in | regard to money matters, is not to stir ourselves | up to enterprise and enthusiasm for making | money so much, as it is to reduce our wants | and desires—keep low and simple. I | don't know but that philosophy may be | carried too far, but I like it pretty well. | I think the Community needs it. This John | Woolman carried it to a wonderful extreme | that is really laughable—but he persevered | and carried it through. All folks laughed at him in his own generation, and | folks will now that read the book with | superficial feelings; but after all, that man | moved the world, and is moving it now. | I do not commend him as a model spiritual | character. There is a great deal of legality | about him, but I recommend people not to | dispise the man, but learn what they can | from him. ;
